

# HealthPoint Skin-Deep

HealthPoint's highly trained medical skin practitioners offer a variety of cosmetic procedures, including **anti-wrinkle injections, fillers, skin needling, jessner peels and mole and skin tag removal.**

All of our treatments are cost effective and non surgical, which results in minimal downtime. Our fillers and injections can correct volume loss and have the ability to reshape the face, giving the skin a fresh and rejuvenated appearance. Our fillers are made up of Hyaluronic acid, a natural product found in the skin therefore it is rare for negative skin reactions to occur.

HealthPoint Skin-Deep's results have shown to be instantaneous and improve within a week from your treatment. Our results have also demonstrated our patients to notice a younger appearance with less lines and wrinkles with a healthier complexion.

Skin Needling stimulates the production of your collagen and elastin to create smoother, healthier skin. It reduces acne scarring, stretch marks, fine lines, pigmentation, enlarged pores, blackheads and scarring.

Our practitioners are qualified and skilled to execute all procedures that Skin-Deep offer. As with all treatments and procedures, you should look for qualified and registered practitioners to ensure your safety and happiness.

If necessary, we offer local anaesthetics to assure your comfortability at all times.

All your treatments can be tied together perfectly with our medical skin care range stocked by The Skin Care Company.
